

## Tour de Headwaters 2018 – Event Overview

The 4th Annual Tour de Headwaters Cycling Event will be held on Saturday, September 15, 2018 starting and ending in Dufferin-Caledon, with an anticipated participation of more than 250 cyclists. This community fundraising event promotes a healthy lifestyle for all ages by offering routes suitable for all calibre of cyclist (100 km, 50km and 25 km routes) with multiple stops during this leisurely tour through the amazing Hills of Headwaters. The routes are designed to travel past local businesses featuring the best of food, art and services in our community.

We anticipate this event will net \$50,000+ for our local hospital, Headwaters Health Care Centre. Because the government does not provide funding to hospitals for the purchase of vital medical equipment, all funds raised through sponsorships, registrations and pledges will be used to purchase state-of-the-art hospital equipment.

We are encouraging businesses to step forward as community leaders and join other like-minded companies in supporting this initiative. Brannon Steel is the presenting sponsor at \$10,000, and Teknion has returned at the \$2,500 level.

For more than 100 years, Headwaters Health Care Centre has been at the heart of our community. From lifesaving emergency treatment, to life altering surgery, from bringing new life into the world, to providing comfort at the end of life, Headwaters is here to provide patient centred, compassionate care to everyone who lives, works and plays in Dufferin County and the Town of Caledon.
